Lab 1

Please follow the directions carefully. Your report will not be graded if it is not in the following format. You should not copy any theory or procedure from the lab manual into your report. ONLY write what you are asked for in the following order.

1. Prelab for parts I, II and III
2. For part 1, Write your data points, and do 1, 2, 3 and 4 (from the new lab manual).
3. For part II, Write your data points and do 1 and 2.
4. For part IV, write your measured -3dB frequencies, AC signal amplitudes that you used and calculate the capacitors.
